

Green-Vent Solar

Efficient Ventilation Powered by Nature

Optimize your building's environment with the Green-vent Solar series, combining high-performance extraction with renewable energy technology. Designed for residential and commercial use, these units effectively remove trapped heat and moisture to improve comfort and energy efficiency.

- **SOLAR POWERED**
- **INTELLIGENT CONTROL**
- **DURABLE BUILD**
- **YEAR-ROUND BENEFITS**

Environment Control System (ECS)

The ECS ensures your fan runs only when needed based on attic conditions:

- **TEMPERATURE:** TURNS ON AT 27°C AND OFF AT 25°C.
- **HUMIDITY:** TURNS ON AT 75%RH AND OFF AT 65%RH.
- **HYBRID POWER:** RUNS ON SOLAR DURING THE DAY.

Green-Vent Solar

Key Benefits

- COOLER INTERIORS
- QUIET OPERATION
- QUICK INSTALLATION
- WARRANTY

Available in 30W or 15W:

Features	30W Model	15W Model
Solar Panel	30 Watts Polycrystalline	15W - 36 Cell Poly-Crystalline
Motor	38V DC Motor	38V DC Servo Motor
Performance	High performance in low light	Up to 850CFM / 400LPS
Throat Size	350mm	350mm
Materials	UV Stabilized Thermoplastic Shroud	3mm ABS Shroud / Aluminium Flashing
Control	ECS Included as Standard	Optional Add-on
